Othuvatu ozhiyel - Literary Chanting for Tamil Teachers (OOT)

Traditionally, breathing practices are taught at a young age for lifelong health. Keeping that in mind, Dr. Sundar Balasubramanian have devised methods to teach breathing exercises along with poetry/literature for Tamil school students.

As training the teachers will spread the practice to large number of students efficiently, Dr. Sundar is primarily training the teachers from Mazhalai through High School (K-12).

After the initial 1 hour program the teachers can easily transmit this type of learning to students.

Dr. Sundar have been teaching this in the US and other countries. This can be a In-person / Online event based on teacher's convenience.

Up to 10 teachers the cost will be \$12/Teacher. More than 10 teachers the cost will be \$10/Teacher.

To know more about Dr. Sundar Balasubramanian please visit www.pranascience.com

For more details and schedule workshop please reach us at info@pranascience.com

New Year Greetings from PranaScience

We wish you a very happy and prosperous new year! Let's welcome the new year with the new 2-0-2-3 breathing game.

As simple as it sounds! While breathing through the nostrils, inhale fully within 2 counts, no breath-hold (0), exhale completely in 2 counts; and hold the breath out for 3 counts. Repeat the cycle.
